

Masters Theses

1. Laura E. Johnsen, "Novel Sealing Glasses", May 2000.
2. Carol A. Click, "Properties and Structures of Cesium Phosphate Glasses," May 2000.
3. Andrew K. Wittenauer, "Preparation, Properties and Structure of Rare Earth Phosphate Glasses," May 2002.
4. Jessica D. Lowry, "Dissolution Behavior of Alkali Borate Glasses," May 2002.
5. Heather K. Teitelbaum, "Borate Glasses for Bioactive Coatings on Titanium," May 2002.
6. Adam J. Lang, "Failure characteristics and durability of phosphate glasses," December 2003.
7. Kristine A. Miller, "Iron Phosphate Glasses for Black Enamels on Window Glass," December 2003.

MS Degrees Pending:

8. Laxmi Kanth Peddi, "Bio-enamels for Titanium," expected May 2005.
9. Loretta Francis, "Glass coatings on glass," expected Dec. 2005.

PhD Theses

1. Carol Click "Platinum dissolution in phosphate glass", December 2002.
2. Nathan Lower "Failure characteristics of glass fibers," expected August 2004.
3. Brad Tischendorf, "Weathering and aqueous corrosion reactions with phosphate glasses," expected December 2004.
4. Nathan Wycoff, "Structure, optical and magnetic properties of rare earth phosphate glasses," expected May 2007.
