4th Lab Proposal Requirements

1. You should submit your proposal to your GTA by the published deadline to allow time to modify it

2. Must include enough detail for a technically trained, non-specialist to determine feasibility and rationale for performing the experiment.
   – Must explain specific goals for the study – what you hope to determine

3. Must include a literature review citing relevant background information.
   • Should include at least one source from the primary literature – i.e. archival journals, or conference proceedings. These may be found in our library or ordered via ILL (order early!)

4. Should include a detailed budget estimate. All purchases MUST be approved by Dr. Stutts!
Budgetary Limitations

1. The total budget for each group is $100
2. The university does not pay tax, so you should use a university purchasing card with the tax exempt number on it
3. The department will not reimburse for food
4. Publication and duplication costs will not be reimbursed in excess of $25.
