**Syllabus General Physics I (Physics 21)  Spring 2014**

**Time and place:** MTWR 11-11:50  Physics 104

**Text:** “University Physics” by Young and Freedman, 13th edition, Chapters 1-20.  
Older edition OK for reading assignments; homework problems will be taken from 13th edition

**Instructor:** Dr. Agnes Vojta  
216 Physics  
341-6546  
vojtaa@mst.edu

**Course Website:** [http://web.mst.edu/~vojtaa/phys21](http://web.mst.edu/~vojtaa/phys21)

**Goals:** The main goals of this course are to develop an understanding of the basic principles of mechanics (statics and dynamics) and to acquire the proper techniques for the solution of physical problems. For topics covered see schedule of assignments.

**Course format:** Alternating lectures and recitation-and-discussion sessions. The lectures will review and clarify important concepts of the reading material and present examples for physical principles and problem-solving methods. **You are expected to have read the reading assignment prior to the lecture.** The recitations will be used to discuss conceptual questions and practice problem solving. You are encouraged to ask questions at any time during class.

**Office hours/Learning assistance:**  
Physics Learning Center: Wed 1:30pm-3pm in Physics 202; 5:30pm-7pm in Physics 127.  
Test week help sessions: Day before test 6pm-7:30pm in Physics 127.  
Feel free to email me any time to set up additional appointments, or just drop by my office.  
Free tutoring is available through the LEAD program: [http://lead.mst.edu/assist/](http://lead.mst.edu/assist/).

**Sources of course points:**

**Tests:** Three tests will be given during class time on Wednesday February 19, Thursday March 20, Wednesday April 23. Each test counts 120 points.

**Final exam** (Monday, May 12, 4:00pm-6:00pm): 120 points

**End Material Quiz** will be given during the last class period (May 8). 40 points

**Quizzes** will be given unannounced. 10 pts each.

**Homework** is due Thursday 11am every week. Either the whole assignment or a particular problem will be collected and graded, or the students will be asked to rework a homework problem in class without their notes and turn this in. 10 points each week.  
The three test preparation homeworks as well as the assignment in the last week of class will not be collected and graded; they serve solely as preparation for the tests and the end material quiz.
Points available:
In order to make up for illness, family emergencies and other reasons why you might miss an assignment or have a bad day:
- the lowest score of the four tests (three test + final) will be dropped
- you can earn at least 220 points for all quizzes + homework, but only 200 points count towards your grade

Exception: If you must participate in a conflicting major university or intercollegiate event during a Test, you need to contact me **a week prior to the exam** to arrange makeup. I will need a letter or email from the event's Missouri S&T Faculty Sponsor. There will be no other makeups for any other reasons.

3 tests + final, each 120 points, highest 3 360
End Material Quiz 40
22 {quizzes, homework, in-class problems} each 10 200
= 220 points available, 200 count 200
600 total

Grading Scale:
A for 89.50% of 600 ≥ 537
B for 79.50% of 600 ≥ 477
C for 69.50% of 600 ≥ 417
D for 59.50% of 600 ≥ 357
F for less than 59.50% < 357

Regrades and spreadsheet corrections
Requests for regrades must be made in writing no later than the class following the class in which the assignment or test was returned. If a score has been entered incorrectly in the grade spreadsheet, you must bring me the assignment in question. Requests for corrections must be made before the beginning of the last class in the semester. No changes will be made after the end material quiz has been given.

Students with excessive absences (more than 5 missed assignments) can be dropped from the course. The Academic Alert system will be utilized to inform you about problems with your performance and/or attendance and about actions necessary to meet the academic requirements. Students with 5 or more missed assignments will not be allowed to switch to Hearer status.

If you have a disability and anticipate needing accommodations in this course, you are strongly encouraged to meet with me early in the semester. You will need to request that the Disability Services staff send a letter to me verifying your disability and specifying the accommodation you will need before I can arrange your accommodation. Disability Support Services (http://dss.mst.edu) is located in 204 Norwood Hall, phone 341-4211, email dss@mst.edu.

Academic Dishonesty will not be tolerated. See http://registrar.mst.edu/academicregs.

Emergency exit: The egress map for the physics lecture hall is here:
http://registrar.mst.edu/media/administrative/registrar/documents/egress/egress_phys_104.pdf
Please take a moment to identify the emergency exit.

Unresolved complaints: It is hoped that any problems can be resolved through discussions between student and instructor. If there are any complaints that cannot be resolved you may contact the Physics Department Chairman, Dr. Waddill (waddill@mst.edu)
