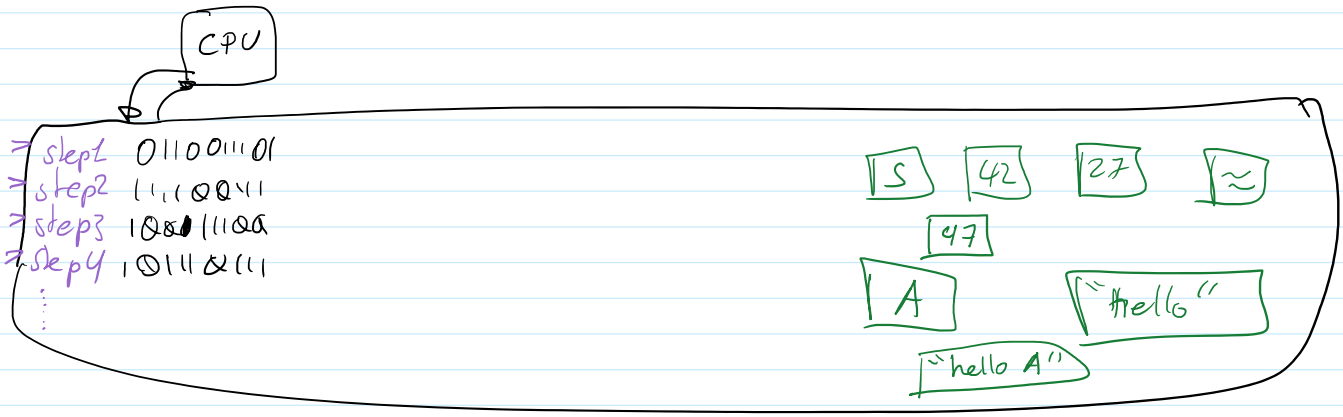
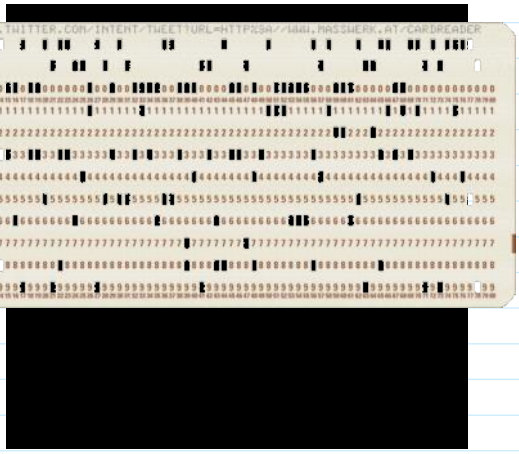
Programming Languages & Python

Monday, August 28, 2023 7:58 AM





- **Programming Language**
  - Syntatic language intended to write computer programs.
  - A separate program (compiler / Interpreter) translates from the Language to Binary.

IBM '59 FORTRAN by. John Backus

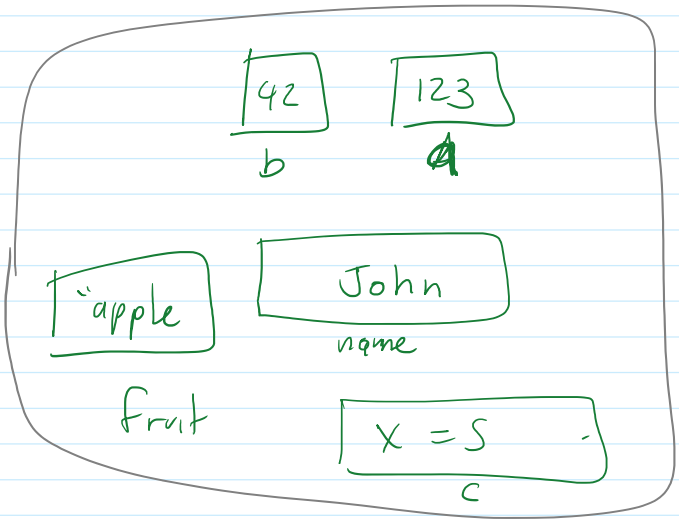
- **Python.**

'90 Guido van Rossum.

Python.

'90 Guido van Rossum.

http://python.org



- Python input / output.

print (<what>) displays on screen

Where? = input () reads from keyboard

EOF
