

Physics 2135: Asynchronous online lecture section 1CC

Lecture section 1CC is an online section. This means the lectures are delivered on the course website in the form of videos. We are offering the lectures in an **asynchronous** way. Lectures will be available at the latest by 9pm the evening before the scheduled class day, and will remain available throughout the semester. The online lectures present the same material as the live lectures.

Because we consider in-person interaction with faculty to be a major contributor to student success, all Physics 2135 students are required to sign up for and attend **in-seat recitations and laboratories**. For additional in-person interaction with faculty and class mates, we invite you to join us in the Physics Learning Center Mondays and Wednesdays, 2:00-4:30pm and 6:00-8:30pm.

You need to watch the lectures on the scheduled class day, i.e. each Monday and Wednesday, because the homework about that material is due on the following day in recitation, but you can choose any time that is convenient for you. Treat your asynchronous lectures just like any other class that you attend in person on a regular schedule. Since you should watch the lectures before you begin your homework, we suggest that you try to schedule some time earlier in the day so that you can take full advantage of the Physics Learning Center.

Please study the following material before the first recitation:

Course handbook: http://web.mst.edu/~vojtat/class_2135/handouts/coursehandbook.pdf

Syllabus: http://web.mst.edu/~vojtat/class_2135/handouts/syllabus.pdf

Official starting equations: http://web.mst.edu/~vojtat/class_2135/handouts/ose.pdf

You should check your email frequently. The lecture videos are recorded well in advance. Last-minute announcements and corrections which don't appear in the videos will be emailed to students in the asynchronous lecture section.

I hope your time in Physics 2135 will be productive!

A handwritten signature in black ink that reads "Thomas Vojt". The signature is written in a cursive style with a large initial 'T' and a stylized 'V'.
