

# **DIFFERENCE EQUATIONS AND APPLICATIONS**

**Proceedings of the  
Fourteenth International Conference on  
Difference Equations and Applications  
held in Istanbul, Turkey, July 21-25, 2008**

**Edited by**

**Martin Bohner • Zuzana Dořlá**

**Gerasimos Ladas • Mehmet Ünal • Ağacık Zafer**

*Editorial Board*

# Contents

<b>Preface</b>	<b>viii</b>
<b>One-Hour Talks</b>	<b>1</b>
Change of stability without bifurcation: An example <i>Javier Muñoz Almaraz, Emilio Freire, Jorge Galán, André         Vanderbauwhede*</i> . . . . .	3
Minimal rank decoupling of full-lattice CMV operators with scalar- and matrix-valued Verblunsky coefficients <i>Stephen Clark, Fritz Gesztesy*, Maxim Zinchenko</i> . . . . .	19
Spatial discretization of dynamical systems <i>Peter E. Kloeden*</i> . . . . .	61
Continuous versus discrete nonlinear optimal control problems <i>Vera Zeidan*</i> . . . . .	73
<b>Contributed Talks</b>	<b>95</b>
Using B-spline scaling functions for solving integro–differential equa- tions <i>Nasser Aghazadeh*</i> . . . . .	97
Relative oscillation theory for Jacobi matrices <i>Kerstin Ammann, Gerald Teschl*</i> . . . . .	105
Growth rates of delay–differential equations and uniform Euler schemes <i>J. A. D. Appleby*, M. McCarthy*, A. Rodkina*</i> . . . . .	117
Numerical solution of a nonlocal boundary value problem for the Schrödinger equation <i>Allaberen Ashyralyev, Ali Sirma*</i> . . . . .	125
Stability of diffusively coupled difference equations with delays <i>Fatihcan M. Atay*</i> . . . . .	133

Local stability of some rational difference equations and linear recur- siveness	
<i>R. Ben Taher, M. El Fetnassi, M. Rachidi*</i> . . . . .	141
Sharkovsky's theorem and maps on trees	
<i>Chris Bernhardt*</i> . . . . .	149
Necessary and sufficient conditions for oscillation of some higher-order partial difference equations	
<i>Yaşar Bolat*, Ömer Akin</i> . . . . .	155
Boundedness character of rational systems in the plane	
<i>E. Camouzis*</i> . . . . .	163
Towards a full topological classification of cycles	
<i>J. S. Cánovas*, A. Linero, G. Soler</i> . . . . .	171
On the eigenvalues of a non-selfadjoint second order difference operator	
<i>Ebru Ergun, Gusein Sh. Guseinov*</i> . . . . .	179
Optimal monetary policy with partially rational agents	
<i>Orlando Gomes*, Vivaldo M. Mendes*, Diana A. Mendes*</i> . . . . .	187
On Riccati difference equations with complex coefficients	
<i>E. A. Grove, Y. Kostrov*, S. W. Schultz</i> . . . . .	195
Oscillation results for time scale symplectic systems	
<i>Roman Hilscher*, Vera Zeidan*</i> . . . . .	203
The structure of the spectrum for normal operators	
<i>Z. Ismailov, M. Erol*</i> . . . . .	211
Asymptotic behavior of a class of solutions of second-order Emden– Fowler difference equations	
<i>Vitaliy Kharkov*</i> . . . . .	219
Linear $k$ th order functional and difference equations in the space of strictly monotonic functions	
<i>Jitka Laitochová*</i> . . . . .	227
Fixed points and stability of functional equations associated with inner product spaces	
<i>Choonkil Park*, Jung Rye Lee, Dong Yun Shin</i> . . . . .	235
A discrete time integro–difference equation associated with a reaction– difference equation	
<i>Emil Popescu*, Nedelia Antonia Popescu*</i> . . . . .	243

Dynamic replicator equation and its transformation <i>Zdeněk Pospíšil*</i> . . . . .	251
Hibernation prevents chaos: A logistic case study <i>Christian Pötzsche*, Martin Rasmussen*</i> . . . . .	259
Galerkin method for solving nonlinear Fredholm–Hammerstein integral equations with multiwavelet basis <i>Mohsen Rabbani*</i> . . . . .	275
On nonoscillatory regime for stochastic cubic difference equations with fading noise <i>Alexandra Rodkina*</i> . . . . .	283
Discrete densities and Fisher information <i>P. Sánchez-Moreno*, R. J. Yáñez, J. S. Dehesa</i> . . . . .	291
Boundedness and periodicity of a fuzzy max-difference equation <i>G. Stefanidou*, G. Papaschinopoulos*, C. J. Schinas*</i> . . . . .	299
Analysis of a nonlinear discrete dynamical system, signal coding and reconstruction <i>Mouhaydine Tlemçani*, Sara Fernandes*</i> . . . . .	307
<b>Contributors and E-mail Addresses</b>	<b>315</b>
