Difference Equations and Discrete Dynamical Systems with Applications

24th ICDEA, Dresden, Germany, May 21–25, 2018

Series: Springer Proceedings in Mathematics & Statistics

- Presents the proceedings of the 24th International Conference on Difference Equations and Applications (ICDEA), held in Dresden, Germany, May 2018, under the auspices of the International Society of Difference Equations (ISDE)
- Covers difference equations and discrete dynamical systems and their applications
- Appeals to researchers and scientists working in theory and applications of difference equations and discrete dynamical systems

This book presents the proceedings of the 24th International Conference on Difference Equations and Applications, which was held at the Technical University in Dresden, Germany, in May 2018, under the auspices of the International Society of Difference Equations (ISDE). The conference brought together leading researchers working in the respective fields to discuss the latest developments, and to promote international cooperation on the theory and applications of difference equations. This book appeals to researchers and scientists working in the fields of difference equations and discrete dynamical systems and their applications.
