Professor Wenqing Hu
Missouri University of Science and Technology

Dear Professor Hu:

It is my pleasure to inform you that your Research Board Application, *Multiscale Stochastic Differential Equations*, was approved for funding at the May Board meeting. An award in the amount of \$5,000 for a period of 12 months has been made to support your project, beginning as soon as you wish, after a budget has been established at your campus. Please contact your campus research office to establish the MoCode and Chartfield for your award.

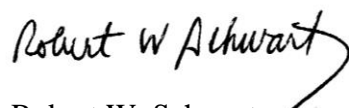

Please note that you must meet all campus compliance requirements and follow the Research Board Guidelines relative to the administration of awards. Acceptance of this grant constitutes a commitment on your part to submit an Award Report which is to be submitted to the Research Board Office one year following the ending date of your grant. Your Campus Official will submit a financial report to the Research Board Office no later than 60 days after termination of the grant period.

Peer review comments will be available at the Research Board website:
<https://umresearchboard.missouri.edu/Login.aspx> immediately.

The Research Board's approval of your project expresses confidence that your work will elevate the University's stature through enhanced scholarship and acquisition of external funds.

Please feel free to contact me directly, or Ashley (Wilson) Berg (bergak@umsystem.edu), should you desire additional information regarding the review of your proposal by the UM Research Board.

Sincerely,

Robert W. Schwartz
Interim Vice President

c: Mariesa Crow, Vice Chancellor for Research
