

Physics 2135 Homework translation table

The official text for Physics 2135 is the 14th edition of Young and Freedman. You may use 13th edition of the text if you wish. However, homework is assigned from the 14th edition.

Most of the problems assigned have corresponding problems in the 13th edition, but the problem numbers are frequently different, and **numerical parameters may be different**.

The following table lists the corresponding homework problems in the two editions. This information is provided for your convenience, and no guarantees regarding its accuracy are made! **You are responsible for doing the correct homework.**

When you are called on to do boardwork, you will be given a sheet with the appropriate homework problem from the 14th edition. Use the numbers in the sheet provided.

Please notify me a.s.a.p. if you find mistakes in this table or if you find the two missing corresponding problems!
